

/home/nightwalker/Class  
/C\_Adv/biblio/inc/fort.h

```
graph TD; A["/home/nightwalker/Class  
/C_Adv/biblio/inc/fort.h"] --> B["stddef.h"]; A --> C["stdlib.h"]; A --> D["stdint.h"]; A --> E["limits.h"];
```

The diagram illustrates a directory structure. At the top, a gray rectangular box contains the path `/home/nightwalker/Class` and `/C_Adv/biblio/inc/fort.h`. Four dark blue arrows originate from the bottom edge of this box and point downwards to four separate white rectangular boxes arranged horizontally. Each of these boxes contains the name of a standard C header file: `stddef.h`, `stdlib.h`, `stdint.h`, and `limits.h`.

stddef.h

stdlib.h
